Re: Canadian Stucco

TO WHOM IT MAY CONCERN:

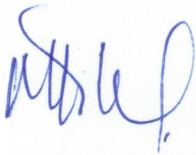

The above mentioned company has done two (2) major restoration jobs during the year 2004.

The 50 and 200 buildings which are approximately 75,000 sq feet each were totally recladded at a cost of \$ 300,000.

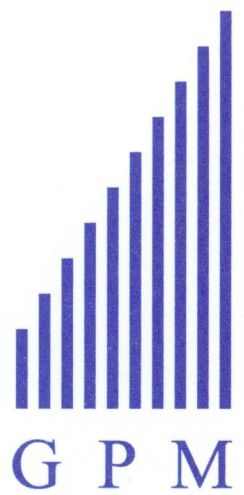

Four (4) swing stages were in use while this contract was undertaken. The Board of Directors and Management were completely satisfied that this project was completed in three (3) months by Canadian Stucco.

Based on the above performance we have no hesitation in recommending this company for consideration of similar jobs that may become available.

Yours truly,

Mahadeo Dhanpaul.  
Property Manager.
