Consumer's Original Complaint :

Compliments: Outstanding service and customer awareness.

Trustworthy, efficient.

This is a canadian company that seems to understand the importance of "legacy" in regards to their product and the need for quality workmanship in the housing market today. Bebe took the time to explain to me how they expanded into the residential area with stucco.

As a home owner, I am relieved to find honest business practices can still be found.

I had confidence dealing with the company and signing the contract, because "Bebe" knew his business so well, and took the time to explain

things to us without impatience. So rare these days. Please put this company on your "ones to watch" or your "we recommend list!" Homeowners will be thankful. I would like to see your BBB sticker in their trade booth sometime soon....All the Best.
