February 3, 2005

To Whom It May Concern:

This is to verify that HN Construction Limited began a business relationship with Canadian Stucco Company as a sub-trade contractor in 2003.

We try to involve Canadian Stucco Company in as many projects as possible due to their excellent performance, co-operation and professionalism.

In the past Canadian Stucco Company was awarded the contract over \$250,000.00 and HN Construction was very satisfied with their performance and workmanship.

Without hesitation I would recommend Canadian Stucco Company to anyone who might consider this company as their sub-contractor.

If you need additional information or verification, please contact the undersigned.

Yours truly,

George Banyasz  
President
